(54) Title: ADHESIVE TAPE DISPENSER

(57) Abstract: The present invention relates to an adhesive tape dispenser which includes a drawing trigger and a cutting lever close to each other to be pulled by a user's finger and contains an adhesive tape with various width therein, so that the convenience of users can greatly be enhanced and the efficiency in using an adhesive tape can be improved. The adhesive tape dispenser comprises a case body (10); a drawing means (50) including a trigger (15) protruded out of the case body (10) and a pair of drums (16) rotated by pulling the trigger (15); a cutting means (300) including a cutting lever (31) provided adjacent to the trigger (15) outside of the case body (10), a lever (32) operated by pulling the cutting lever (31), and a cutter (30); and a reverse control means (400) to prevent a backlash of the drums (16) in operating the drawing means (50).
